

Add a new virtual hard disk

Click VM → Settings, and select “Hard Disk (SCSI)” in Hardware tab, and click “Add” button

Add a new virtual hard disk

Click “Next” and keep default settings for the next two screens: Select a Disk Type and Select a Disk, in screen of Specify Disk Capacity, change “Maximum disk size” to 2G, and click “Next”

Add a new virtual hard disk

Click “Finish”, and restart the virtual machine.
